

5 reasons you should have a **FREE** consultation with us

1. It really is free.

There are no sneaky upfront costs and there is no obligation to purchase products or any of our treatments. The aim of our consultations is to fully inform you of the treatments you are interested in, so that you can make an informed judgment whether or not you would like to go ahead with them. Most professional clinics will charge a consultation fee, so you feel obligated to have a treatment – these are often cosmetic surgery-based clinics that have limited non-surgical medical alternatives. You may be offered a free consultation at a small salon or at a part-time clinic at a doctors' surgery but, again, the treatments they offer are usually very limited and the machines used are often less powerful and less effective.

2. You will talk with an experienced professional.

All the staff that conduct our consultations at The Facial Rejuvenation Clinic are highly trained medical professionals, headed by renowned cosmetic physician Dr Garry Cussell, who also perform the treatments. We can guarantee that your skin will be professionally assessed and the best treatment or series of treatments (where necessary) recommended for your particular skin concern. And, as we are a very large clinic, only the latest and most effective treatments are available. Most salons don't offer medical professionals experienced in a range of state-of-the-art treatments for all skin conditions.

3. You will receive a detailed consultation.

Our consultations are booked to run for 30 minutes. We believe you should receive as much information as possible about the treatments you are interested in, and have the opportunity to ask questions. After all, it's your face/body that you are considering for treatment. All our clinicians are friendly and very open to discussion, but you are welcome to bring someone with you for moral support if you are nervous.

4. You will have complete privacy.

All our consultations and treatments take place one-on-one in private, well-lit, modern rooms, where you are treated with the utmost respect. You will never be asked to sit behind a drawn curtain in a public thoroughfare!

5. We are upfront about treatment.

After we assess your skin concern, we will give you a full written report outlining the total cost of your desired treatment(s). Until we see you, we are unable to give you a true costing as everyone's skin needs are different. But we can assure you that there will be no hidden costs. We can tailor your treatment to suit your budget and we accept all credit cards. Some of our treatments are also covered by health funds.
